JOSH CHISHOLM

York, PA

(717) 371-0000 | Joshchisholm734@gmail.com [Portfolio](#) [GitHub](#)

Creative and detail-oriented Front-End Developer with hands-on experience building responsive and user-friendly web interfaces. Skilled in HTML, CSS, JavaScript, and modern frameworks like React.js and Node.js. Strong design sensibility with a background in Adobe Photoshop and Illustrator. Currently completing an Associate of Applied Science in Web Development & Design at HACC. Passionate about turning creative concepts into seamless digital experiences. Ready to bring technical know-how and design flair to a fast-paced development team.

Area of Expertise: Responsive Web Design, UI/UX Principles, JavaScript Frameworks, Version Control (Git/GitHub), API Integration, Problem Solving, Adobe Creative Suite, Communication, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Freelance | May 2024 – Present

Freelance Web Developer
- Developed a fully functional Expense Tracker using HTML, Bootstrap, and JavaScript with a dropdown category selector, custom input option, amount and date tracking, delete functionality, and a dynamic pie chart displaying percentages.
- Built a dynamic To-Do List App with local storage and interactive UI.
- Created a Pomodoro Timer using HTML, CSS, JavaScript and React to help users stay productive with timed work and break intervals.
- Created a Weather App using React and a real-time weather API for accurate forecasts.
- Delivered a custom logo design for a client using Adobe Illustrator based on client feedback.

Rutter's, Wrightsville, PA | March 2020 – Present

Customer Service Associate
- Delivered exceptional customer service in a fast-paced environment.
- Provided basic troubleshooting for technical issues and streamlined operations.
- Contributed to store efficiency through effective suggestive sales and smooth transaction processing.
- Maintained accurate records and reports, demonstrating attention to detail and commitment to quality assurance.
- Collaborated with team members to resolve customer issues efficiently, reinforcing strong communication and problem-solving abilities.
